

Scenario Planning Clinics

Program Overview. We continue to hear, and feel, the uncertainty facing nonprofits around our region: funding, rising costs, policy, shifting demand, staffing, and technology. That's why Elevate NP is bringing back another series of Scenario Planning Clinics. These dynamic workshops include group discussion with expert facilitators, peer connections, and applied exercises to:

- Get clear on the major drivers of uncertainty and risk for participating organizations – and what some potential scenarios might be
- Develop an action plan to address near-term risks/opportunities and plant seeds for the future
- Get advice and share ideas with peers and colleagues

Intended Audience. These sessions are intended for 501(c)(3) nonprofit organizations with a paid Executive Director and annual budgets between \$100,000 and \$5 million. Space is limited to 20 nonprofit organizations per clinic. These workshops are intended for Executive Directors; participants are encouraged to bring an additional member of their leadership team or Board.
