ELEVATE NP of southwestern pa
knowledge • networks • impact

Elevate NP of Southwestern PA is a regional movement of nonprofits, funders, and capacity builders working together to help organizations **access knowledge**, **build networks**, and **create greater impact** in the communities they serve.

Navigation

We help organizations find and connect to high-quality capacity building resources around the region, including consultants, training opportunities, and reference materials. Navigation is free and confidential. We start with a comprehensive assessment of your current capacity and provide written recommendations of the resources that fit your situation.

Pathways

We provide workshops, training, cohorts, and other skill-building programs in collaboration with other capacity building providers. The topics are based on the areas of highest demand around the sector. Currently, we offer programming on **fundraising, financial management, human resources,** and **scenario planning**, with more coming soon.

Shared Financial Services

We provide bookkeeping, accounting, and strategic financial support built specifically for small and mid-sized nonprofits. We offer flexible, retainer-based service packages to remove barriers to accessing professional financial expertise.
